

LNG Operations Manager

Celsius Shipping offers an attractive position as LNG operations manager to join the LNG team in Copenhagen. You will become part of a dynamic and challenging environment with strong personal development opportunities.

Celsius Shipping has been one of the most active ship-owners in recent years and over the past years built a significant position in the LNG industry with 10 LNG carriers in the water and another 11 vessels on order, all designed and built to latest technology and standards. The company has its offices in Copenhagen, Monaco, South Korea, China and Hong Kong.

Celsius is committed to taking active responsibility for the society and environment we operate in. We are continuously working on making sustainability a central part of our operations, and crew welfare is a major priority in our ESG strategy.

As an integral part of the LNG team in Copenhagen, you will be involved in all aspects of our LNG operations. You will be in daily contact with our LNG charterers and multiple blue chip gas majors internationally, ensuring operations are conducted seamlessly focusing on providing the best service for our customers. The operations team are considered key people in optimizing our results, and your decisions will have a direct impact on the bottom line.

Travel activity to be expected in relation to visiting our customers or participating in different LNG forums.

Job description:

- Monitor Time Charter Parties to ensure compliance and implementation of key clauses for consistent commercial operations.
- Ensure timely delivery of the vessels from Shipyards to Charterers.
- Ensure compliance with company procedures including, but not limited to, handling Bills of Lading, Letters of Protest and Letters of Indemnity.
- Liaising with the accounting department ensuring that charter hire invoices are approved and submitted timely.
- Work with the accounting department to ensure charterers expenses are correctly invoiced and controlled

- Review voyage instructions provided by Charterers and liaise with Charterers as required.
- Know, understand and ensure compliance with generic Charterer's Instructions, notifications and reporting requirements where applicable
- Cooperation with Charterers and vessels about all matters pertaining to Voyage Planning and Instructions for owned and chartered vessels
- Maintain adequate in-depth voyage records by all accepted documentation means including active voyage files, performance, emissions and emails.
- Quality assurance of noon reports and emissions reports
- Liaising with Insurances on voyage related matters to ensure timely notifications and arrangement of premiums
- Ensure new regulations are implemented and followed
- Ensure Ship / Shore compatibility studies are completed timely
- Various ad hoc operational and technical assignments to be expected.

The Profile:

- Bachelor's degree in Maritime transportation, Marine Engineer or Master Mariner
- Previous experience from Maritime operations or sailing experience is an advantage
- Previous experience with floating terminals and/ or LNGC is an advantage
- Solid IT skills
- Proficiency in English both verbally and in writing. Mastering a Scandinavian language is an advantage but not a requirement
- Systematic and analytical approach
- High energy-level and drive and willing to put in the effort to get the job done
- Team-player with ability to work independently without close supervision
- Strong communication skills
- Flexible, service minded and willing to take on whatever job needs doing
- You speak your mind and stand by decisions

We offer:

- A competitive salary package and employee benefits
- An opportunity to work in a dynamic and international environment
- Exposure to some of the latest technologies in the LNG segment
- A challenging and rewarding job with a high degree of responsibility

- The opportunity to be part of a successful team with competent and supportive colleagues
- An attractive career path within operation of LNG vessels
